## BLAKE'S CABARET OPENING

The public is cordially invited to attend the opening of Blake's Cabaret at the corner of Main and Old streets Wednesday evening. The management has spared no expense to make this cabaret the finest in the state. The furnishings and fixtures are the most exquisite ever seen in Tonopah. The services of a number of high class entertainers and a jazz orchestra have been secured. Also a line of soft drinks which are the best procurable will be dispensed.

## ATTENTION, K. OF P.

All members of Mizpah Lodge, No. 25, Knights of Pythias, are urgently requested to be present at their Castle hall this evening at 8 o'clock sharp. Business of vast importance to every member will be very much in evidence. Visiting members of the order are cordially invited.

## PERSONAL

MRS. GEORGE W. LILES left today for a short visit to Reno.

W. D. ELLIOTT, the tailor, left for his home in Reno by this morning's train.

MRS. STANLEY MITCHELL, wife of the internal revenue agent, was a passenger today for the coast.

TOM COULSHAN, father of the Tonopah Gold Mountain country, was a passenger today for the coast.

E. G. WHEELER, president of the Water Company of Tonopah, arrived this morning from the coast.

JOHN MOGEE, president of the Great Western Mining company, came in this morning from his home in Palo Alto.

JAMES L. BOYD, the attorney, who has been engaged in the U. S. court hearing for the past two weeks returned to Reno this morning.

R. L. COLBURN, after spending a day in the Tonopah Gold Mountain district packing up several pieces of equipment, left for San Francisco Saturday night.

JOHN FISLER, the mining editor, and W. W. BROWN, the mining business, were in town yesterday on an important mining business.

TUESDAY SERVICES

St. Mark's church, Tuesday, February 25, 1919. Evening service, 7:30 p. m. You are welcome. Personal & Social, 8:00 p. m.

CARD PARTY AND DANCE

Given by the neighbors of Washington, Friday, Feb. 25, 1919. Refreshments, 7:30 p. m. Admission, 10c. Tickets, 50c.

GET THE DODGE HABIT

W. B. Evans, the taxi man, has bought himself a Dodge car. He is breaking in by taking his passengers to the regular taxicab routes. He says the Dodge is the only car he has ever driven.

## AMUSEMENTS

THRILLING GAMBLING. PLAY AT BUTLER

"The Turn of a Card," a romantic story of chance, from the pen of Frederick Chapin, will be the attraction at the Butler today, with J. Warren Kerrigan in the leading role.

Mr. Kerrigan portrays the role of Jimmy Farrell, a young college man who, rich with courage, goes west to the oil fields where he secures an option on some very rich oil land.

After a series of adventures in which he is reluctantly forced to enter into a game of chance with a well known gambler, he wins not only a large fortune, but also the gambler's home which is located on Long Island in New York.

Upon his arrival east he goes to look over the property which he won by the turn of a card. To his great surprise it is one of the most beautiful estates in that fashionable locality.

He does not take possession of it as its owner, however, but masquerades as a chauffeur for there he meets the girl who is the daughter of the former owner of the estate, and does not know that her father has lost it.

Added to the program will be the latest radio news, tomorrow, Jewel Burman in "Lovers' Love," and a Matt & Jeff comedy.

SEE A. H. KEENAN FOR THE FOLLOWING:

FOR RENT

Five-room adobe, furnished, modern piano, garage, fenced in yard and sewer included; \$35.

Three-room bungalow, Knapp ave., \$14.50.

## NORTH DIVIDE MINING CO.

The following information is given to the public to the end that the people of Tonopah may participate in the first public offering of shares equally with those of my friends of San Francisco and elsewhere.

**ORGANIZATION:** The NORTH DIVIDE MINING CO., Incorporated Feb. 7, 1919, under Laws of the State of Nevada. J. E. KERR, President; J. D. BROWN, Vice-President; H. B. WADE, Secretary-Treasurer. J. GRANT CRUMLEY and A. M. TRIDEL, Additional Directors. Capitalization, \$200,000. Shares Authorized, 2,000,000. Treasury reserve, 1,000,000 Shares.

Shares issued in payment of complete machinery plant and the securing of deeds to the property, are contracted to be and will be tied up absolutely tight by escrow contract with stock deposited in Tonopah Banking Corporation for one year.

This is the best evidence of the faith, good intent and purpose of the organizers of the NORTH DIVIDE MINING COMPANY to make of it a big success as soon as it is possible to do so.

## MANAGEMENT

The company will be managed by experienced, dependable men. The work will be in charge of Superintendent W. E. Davis, who holds the low-cost record of having recently sunk a shaft in Nevada, twenty miles from a railroad, to a depth of five hundred feet, at \$12.41 per foot, a low-cost record unequalled in the history of mining. Such a man in charge of the work is a guarantee of efficient, rapid, economical development. Well known business men form the Directorate, including J. E. Kerr of San Francisco, who will be manager of the company. For eighteen years I have maintained business offices in San Francisco while engaged in mining business in California and Nevada, and have dealt extensively with supply and jobbing houses of both States as well as with the banks. During all these years, every obligation made with supply houses, banks, or individuals, has been fully met. This can be verified by supply houses and banks of Nevada and San Francisco; also Bradstreet or Dun or other commercial agencies.

## ANOTHER MINE IN THE MAKING

The group of six full claims of 120 acres, known as the Midnight and Moonlight group, giving a solid block of ground 1800 by 3000 feet, were bought and will be developed by the NORTH DIVIDE MINING COMPANY. These claims are of special interest and value because of their very

favorable situation, physically and geologically. Physically, because located in low rolling hills, they show extensive surface erosion. This erosion—the action of the elements in disintegrating and washing away the surface through countless centuries—has been great enough to reach and expose the vein system. Geologically important, because centering in the NORTH DIVIDE claims are two distinct vein systems, exposed because of this deep erosion. The volcanic flow, or capping, is deep in other parts of the district, therefore, because of deep erosion on the NORTH DIVIDE claims, miners years ago worked the exposed veins which show clearly defined walls in shallow workings from which good ore was taken. Former owners report that some shipments were made and that an old arrastra was erected for treating the ore ore.

These important considerations lead to the conclusion that, with the complete machinery plant of the NORTH DIVIDE and the systematic development of the vein system at depth assured, the opening of extensive, highly payable ore bodies will result.

The permanent working shaft is located on one of the big veins on which a shallow shaft of 40 feet was sunk on the hanging-wall side of the vein. This wall is smooth, clean-cut and almost vertical. Assays as high as \$45 have been had from this shaft. No crosscut was made to determine the width of the vein. Three other veins can be reached within 200 feet to 400 feet and will be developed through this shaft.

Associated with me in this enterprise for the systematic development of the NORTH DIVIDE MINING estate are a number of business people who joined with me in the purchase of this property and who with me have already provided a thoroughly complete development machinery plant consisting of hoist and engine good for sinking 1000 feet, another engine with compressor for

running power shaft, etc., etc., etc., and water pipes, tools of all kinds, muckers and camp outfit, etc.

This plant is now on the ground and will be working in a few days.

We believe in the ultimate success of the property. Our confidence is based on our experience, reinforced by the skill and engineering skill and ability.

We talk our confidence about cash. We are working for a big, quick success. We are sure to win and believe we will.

Money, time, energy and experience will be solidly behind the enterprise. Will it be high-grade ore? We have no doubt that it will be, and that big profits will be a cumulative proposition to our stock holders.

## TO THE FOUR PER CENT MAN

If you think you can make more money by keeping your money invested at 4 per cent, then don't join us. The 4 per cent man never starves, but he never grows rich. He knows nothing of the urge and thrill of conquest, the huge winnings that sometimes come by taking a chance. Many of the huge fortunes piled up in this country, especially in mining, have come to those men with the daring spirit of the West, who took a chance and made good. Since the day the Pilgrim Fathers landed on the bleak New England coast and the succeeding generations pushed Westward through the wilderness, it has been the men of daring who took the long chance that have made the nation great. The 4 per cent man would have to live a thousand years, and MORE, to collect his 4 per cent interest to equal the profits already made on some of the Divide stocks, earned in one year. And the advance in Divide stocks has only begun. Buy good Divide stocks and HOLD ON! Don't sell because a little cream can be skimmed off the investment with the advance of shares on the stock exchange. Big profits come with development of the mines and the opening of the ore bodies. This important fact is strikingly illustrated in the following:

## HE MAKES \$200, LOSES \$50,000

Are you aware that Tonopah Divide stock sold at 10 cents per share or less? A business man of Tonopah told the writer he had taken 10,000 shares at 10 cents per share and when it advanced on Exchange to twelve cents he sold out and made \$200,000, less commission, and thought he had done well. There was a decided expression of regret when he told this story, and he added as an afterthought, "If I had held that block of stock, today I could sell it at a NET profit of \$50,000. One member of the San Francisco Mining Exchange is credited with having made \$30,000 in having sold out when the shares reached \$3.00. Others have made fortunes out of the stock, and other fortunes are in the making with the predicted price of \$20 per share by the end of the year."

## PRE-LISTING PRICE OF SHARES NORTH DIVIDE MINING COMPANY

Intelligent buyers of stock understand the advantage and importance of buying shares in such a company as the NORTH DIVIDE at

The first offering.

The pre-listing price.

At the very bottom.

The buyer places himself in position to take advantage of a rising market, or to hold his shares during the development period until the big price comes when payable ore bodies are opened and the big buyers get into the market to buy at high prices.

Buy NORTH DIVIDE SHARES NOW, at the pre-listing price—at the first public offering. The Company will at once make application for listing the shares on the San Francisco Stock Exchange to create an active market.

Naturally, with the installation of the complete machinery plant and with the rapid development of the property shares will be worth more and will be in demand at a higher price.

## A LIMITED ALLOTMENT

A limited allotment of shares will be sold at the very low pre-listing price of five cents per share, cash with order.

WE BELIEVE NORTH DIVIDE SHARES AT THE VERY LOW PRICE QUOTED, AFFORDS THE BEST MONEY-MAKING OPPORTUNITY IN THE ENTIRE DIVIDE DISTRICT OF ANY COMPANY THAT IS NOT ALREADY ON A PRODUCING BASIS.

## CONCLUSION

The good business standing of the Directorate of the NORTH DIVIDE MINING COMPANY, the location and value of the land, the completeness and value of its machinery plant, the assurance of immediate, rapid and economical development, the certainty of a quick advance in price of shares, the eminently fair method and manner of organization and the fact that the organizers of the company have friends in Tonopah, San Francisco, and elsewhere who want substantial blocks of this first public offering of stock at the low, attractive pre-listing price, make it certain that the first limited allotment of shares will be quickly taken. Therefore, those desiring to participate in this first offering should not delay their orders and to insure execution of order should wire for reservation of shares desired and have remittance follow by first mail. Remittance should be made by money order, bank draft or certified check. Currency should always be sent by registered mail. I expressly reserve the right to cancel or reduce any order or return the subscriber his remittance.

Make all remittances payable to

J. E. KERR, Monadnock Building, San Francisco, Calif.

THE DATE IS TODAY.

P. S. Orders for North Divide Mining Co. shares may be placed with Smith & Amann or other local brokers. I shall be pleased to confer with those interested in the purchase of these shares at the Mizpah Hotel, before my departure for San Francisco Wednesday morning.
